POINTS AND AUTHORITIES**

Date: AUGUST 26, 2011

Time: 10:00 am

I. RELIEF REQUESTED

Plaintiff Brenda J. Little respectfully requests that the Court allow
her to file an over-length memorandum of points and authorities.

II. STATEMENT OF FACTS

Little has ten drafts of the Memorandum of Points and Authorities
for a Declaratory Judgment. At least five of the drafts are the normal

1 drafts needed to thoroughly cover the issue. But at least three of drafts
2 were Little's attempt to bring the memorandum within guidelines in the
3 court rules. After seven weeks it became apparent that Little believes
4 that the issues cannot be covered within the specified guidelines. She

8 **III. Argument and Analysis**

9
10 Parties may petition the court under LR 7(e) to file an over-length
11 brief. The Court disfavors motions of this type. When the Court
12 reviews the cases cited in the Table Of Authorities, it will notice that
13 cases dealing with Article III tend to be lengthy, more so than cases
14 dealing with other issues. In order to raise the issues that needed to be
15 raised and to give the Court the tools needed to write its decision,
16 Little's Memorandum could not come in under the rules solely based
17 upon the subject matter.
